ALUMINIUM LOUVRES

**LOCARNO** aluminium louvre systems are designed in New Zealand to withstand any environment.

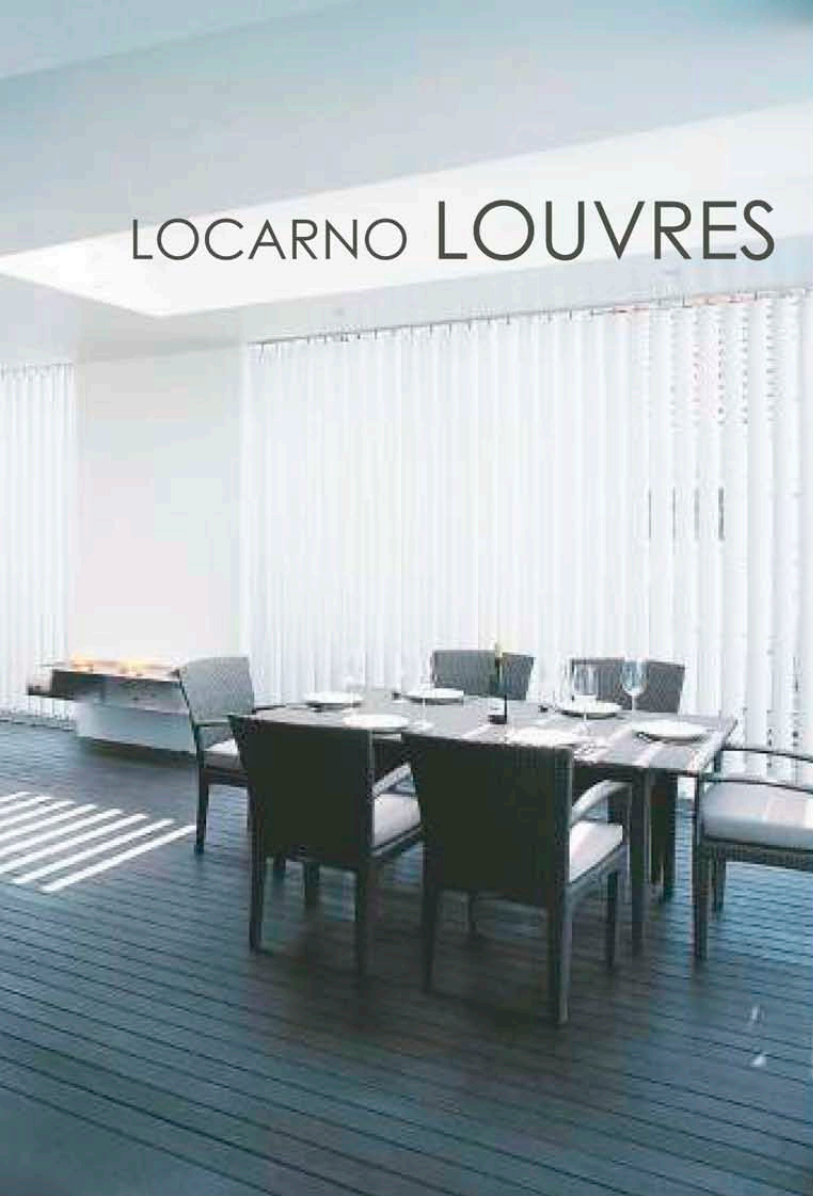

**LOCARNO** specialises in the architectural market, offering customised solutions and design assistance, as well as manufacturing and installation project management.

**NEW ZEALAND'S** leading architects specify LOCARNO louvres for their aesthetics, design detailing and environmental sustainability.

**THE VERSATILE LOCARNO** range of profiles caters for both fixed and operable louvre applications, on both residential and commercial projects.

# LOCARNO LOUVRES

## LOCARNO LOUVRE PROFILES:

### SL RANGE

These S-shaped louvres achieve a fine-edged look and nest together tightly when closed.

### EL RANGE

These are elegantly proportioned, classic ellipsoid profiles.

### RL RANGE

Locarno offers two motorised louvre roof options. The RL200 is a rectilinear profile for a contemporary aesthetic. The RL190 is a curved louvre roof profile.

The RL200 rectilinear profile also works well as a vertically orientated blade.

## CONFIGURATIONS

- Operable - louvres can be motorised or adjusted manually.
- End fixed - louvres are fixed between frame members.
- Clamp bracket fixed - louvres are fixed to concealed frame members.

The full range of anodised and powder-coat finishes are available.

PROFILE	SHAPE	END FIXED	BRACKET FIXED	MANUALLY ADJUSTABLE	MOTORISED	LOUVRE ROOF

EL185		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
SL207		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
RL190		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
RL200		<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

\* The RL200 is manually adjustable in vertical configurations only

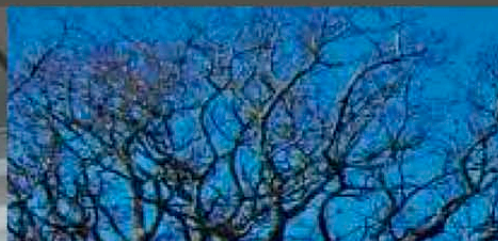

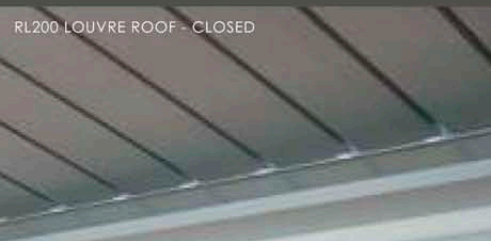

# LOCARNO OUTDOOR ROOMS

**THE CONCEPT OF ALFRESCO** dining has long been embraced, but today the possibilities surrounding outdoor living go a lot further. Many homes now feature an outdoor room or loggia to extend living spaces to the outdoors. LOCARNO louver systems let you control your environment, allowing you to enjoy your outdoor room through summer and beyond.
